AT ONE WITH THE ROAD

Lighter and more streamlined than ever, MX-5 captures Mazda's signature Kodo Design philosophy in its most exciting form. 'Jinba Ittai' – the philosophy of 'horse and rider as one' – can be felt in the ultra-responsive handling and enhanced feeling of balance and control as a result of perfect 50:50 front to rear weight distribution. Lean, muscular lines capture the moment energy becomes motion, while the uncluttered interior is designed to feel like an extension of the driver. As the world's most popular lightweight sports car for over two decades, iconic Mazda MX-5 excites every sense like only a true roadster can.

SAFETY NEVER TAKES A BACK SEAT

The Mazda MX-5 is just as focused on delivering an exhilarating drive as it is maximising safety. i-Activsense safety technologies[†] come standard across the range; including Advanced Smart City Brake Support – Forward/Reverse (ASCBS-F/R) and Adaptive LED Headlamps (ALH).

The MX-5 also showcases Kinematic Posture Control (KPC), Mazda's latest Skyactiv-Vehicle Dynamics technology for rear-wheel-drive base vehicles, which suppresses rear lifting force during cornering, thereby improving vehicle stability, traction and body roll characteristics.

[†] Driver assist technology only. It should not be used in place of skilled and safe driving practices. It is the driver's sole responsibility to monitor vehicle surroundings and conditions and comply with all applicable laws at all times.

COMMAND THE ROAD AHEAD

Mazda MX-5 is the epitome of the driver's car, giving you the feeling of being at one with the vehicle. Interior panels envelop the driver for a sport-luxe feel in the cockpit. Sink into the artfully designed seats and adjust the telescopic steering wheel for a truly bespoke driving experience. With MZD Connect, Mazda MX-5 becomes an extension of your smartphone, with Bluetooth as well as Apple CarPlay™ and Android Auto™ as standard. In addition, the MX-5 includes a premium 9-speaker Bose® sound system, featuring a subwoofer and driver's side headrest speakers.

BBS FORGED ALLOY WHEELS

These sporty 17-inch alloys help sharpen steering and improve the already impressive handling.

BREMBO FRONT BRAKES

This upgraded package enhances stopping power, giving the driver more control. Brake cooling performance has also been improved.

BILSTEIN SHOCKS

A front strut bar links suspension towers to increase chassis stiffness and Bilstein dampers further improve vehicle dynamics.

*Mazda Fuel Consumption and Emissions figures are based on ADR 81/02 test results under the NEDC test programme. This data is useful in comparing the fuel consumption of different vehicles, however it may not be the fuel consumption achieved in practice. This will depend on traffic and road conditions, accessories fitted and how the vehicle is driven.

Please note that from December 2021 the NZTA has standardised the reporting of all Fuel Consumption and Emissions data based on 3-Phase WLTP, using a formula to convert NEDC to 3P-WLTP. This data will appear on websites such as Rightcar and Fuelsaver.
